## Uniform Accounting System of Special Districts.

## Basis of Accounting

The general operating group of funds (governmental fund type) are budgeted and accounted for using the modified accrual basis of accounting. This group of funds is summarized on Schedule 1 of the budget document.

Internal service and enterprise funds are budgeted and accounted for using the full accrual basis of accounting.

## Budget Goals and Objectives

The County Budget sets forth the foundation for major Board policy actions and provides a fiscal “road map” for the direction of County government to follow, now and in the future. As such, the County Budget represents the single most important document that is prepared, reviewed and approved on an annual basis. It is the document that reflects the County’s fiscal commitment to the Strategic Plan and its goals and objectives.

The intent of the Budget document is to:

- Provide a document in a format that is user friendly and readable in order to give the public a clear understanding about County government operations and funding. The County Statistical Profile gives the reader a comprehensive profile of the County.
- Identify the strategic goals and objectives upon which budget allocations are made and to measure the progress of County Departments and operations in fulfilling their departmental goals and objectives as well as the County’s overall mission.
- Provide the Board and the public with a clear understanding of the revenues and the appropriations in the areas of Public Safety and Health & Social Services.

While many improvements have been incorporated into the process and the

# Budget Construction & Legal Requirements

---

presentation of the Budget over the last several years, we have maintained the basic principles, goals and objectives of Solano County as the underlying foundation for the Budget. These include:

- The Budget must be balanced with appropriations equaling the combined total of estimated revenues, fund balance and/or reserves/designation.
- Wherever possible, the Budget should be balanced with ongoing and known revenue sources equaling ongoing and expected expenditures.
- To the extent possible, one-time money should not be used for ongoing operations.
- Service levels should be maintained at the highest level, within funding constraints.
- Prudent Contingencies and Reserves should be increased in good years to guard against future uncertainties.
- Discretionary revenues should be maximized to allow the Board options for the funding of beneficial local programs and services.
- Accuracy and accountability in estimating and monitoring both revenues and expenditures throughout the fiscal year.
- The Budget should, wherever possible, anticipate and make provisions for uncertain funding for County-operated programs.

In reference to the stated goals and objectives above, there are several policy guidelines that were followed and maintained in developing this Budget:

- Proposition 172 funds have been allocated to maximize public safety benefits.
- Realignment revenues have been allocated to Health & Social Services.

- General Fund Contingencies and Reserves have been increased, whenever possible, to safeguard against future uncertainties.

## Budget Policies of the Board of Supervisors

In addition to the legally required duties, there are certain actions to implement the budget process, which the Supervisors may take:

- Changing the arrangement of information on budget forms, upon approval of the State Controller. (Government Code 29005)
- Designation of data, in addition to available financing and financing requirements included in departmental estimates. (Government Code 29006)
- Selection of method of presenting supporting data for salaries and wages appropriations. (Government Code 29007)
- Designation of Auditor or Administrative Officer to receive budget estimates. (Government Code 29040, 29042)
- Designation of Auditor or Administrative Officer to submit estimates in event of nonperformance by responsible official. (Government Code 29045)
- Designation of Administrative Officer to prepare budget tabulation on prescribed forms. (Government Code 29061)
- Designation of Administrative Officer to hold budget hearings and recommend changes to tabulation. (Government Code 29062)
- Adoption of alternate Proposed Budget Procedures. (Government Code 29065.5)
- Authorization of additional appropriation controls and designation of official to

# Budget Construction & Legal Requirements

---

administer controls. (Government Code 29090)

- Approval of new positions and fixed assets prior to Final Budget adoption. (Government Code 29124)
- Designation of official to approve transfers and revisions of appropriations within a budget unit. (Government Code 29125)

- Designation of official to whom Auditor shall submit statements showing conditions of budget appropriations and estimated available financing (Government Code 29131)

## Adopted Budget Policy

The FY2007/08 Budget Hearings were held on Monday, June 25, 2007.

The Board of Supervisors has designated the County Administrator as the official responsible to carry out all County budgetary responsibilities not specifically reserved to the Board of Supervisors, Auditor or State Controller.

Chapter 2 of the Solano County Ordinance provides additional information on established County policies. Sections 2-40 through 2-47 specifically address the duties of the County Administrator. Section 2-45 delineates the County Administrator's role in budgetary matters. These duties include:

- Develop budget instructions and policies, revenue estimates, and departmental budget targets to guide departments in budget preparations.
- Recommend to the Board of Supervisors an annual County operating budget based on

revenue projections, budget targets and proposed goals, objectives, work programs and projects developed by the various departments.

- Recommend to the Board of Supervisors a capital budget based upon long-range plans for acquiring, constructing or improving buildings, roads, and other County facilities.
- Recommend to the Board the acquisition and disposition of real property, except for County roads, easements, and rights-of-way which shall be the responsibility of the Director of Resource Management.
- Establish a control system or systems to insure the various County departments and other agencies under the jurisdiction of the Board of Supervisors are operating within their respective budgets.
- Recommend requests to the Board for unforeseen and unbudgeted expenditures.
- Approve fund transfers and budget revisions within appropriations.
- Recommend to the Board any fund transfer requests requiring Board action under state law.
- Establish policies for acquiring additional or replacement fixed assets.
- Keep the Board informed of the financial status of the County and of other matters of major significance which affect the County.

## Budget and Fiscal Policies Adopted for FY 2007/08

### Budget Policy

1. General Fund Emphasis: Budgets should be prepared with a goal that the FY2007/08 Net County Cost or General Fund Contribution to

# Budget Construction & Legal Requirements

---

programs will not exceed the FY2006/07 level, pending the outcome of actual Year End Fund Balance. Wherever possible, reductions in General Fund Contribution or Net County Cost should be sought. Increases in General Fund Contribution or Net County Costs may be proposed, consistent with Board's priorities and County Strategic Plan.

2. Use of Tobacco Master Settlement Agreement (MSA) funds: If necessary, the Requested Budget may include the use of MSA dollars to fund existing County health programs, releasing General Fund dollars for other priorities; and involve the MSA Advisory committee to consider the impacts on the MSA strategic plan and the use of the MSA funds.
3. Contributions to Outside Organizations: The Budget should not include contributions to outside organizations, such as the State Courts.
4. Maximize the Board's Discretion: Wherever legally possible, revenues are to be treated as discretionary resources, rather than as dedicated to a particular program or service. The goal is to give the Board as much flexibility as possible in allocating resources to local priorities including the Goals and Objectives outlined in the County Strategic Plan. To the extent allowed by law, fund existing programs or activities with dedicated funding sources. This will free up scarce discretionary resources to fund Board priorities.
5. Pursuit of New Revenues: Pursue additional revenue sources, to the fullest extent possible for all services, as well as total cost identification (including indirect costs) for fee setting purposes. To the extent possible, any new revenue sources for programs receiving General Fund support should be used to offset the cost of existing staff and

programs, rather than funding new staff or programs.

6. Discretionary Programs: Do not propose new discretionary programs unless the programs are fully funded in FY2007/08 and continue to do so in future years.
7. Pursue Operational Efficiencies: Explore reducing expenditures and maximizing revenues through consolidation of functions and streamlining of County operations.
8. County Share: If funding is reduced, there should be no increased County share for programs funded primarily from non-General Fund sources, unless increased County share is mandated or the program is a high priority for the Board of Supervisors and the amounts are reasonable in light of the County's fiscal situation.

## General Fund Reserve and Other Designations Policy

### General Fund Reserve

On February 13, 2007, the Board adopted the policy to maintain General Fund reserves equal to 10% of the County's total budget, excluding inter fund transfers, and a General Fund Contingency level equal to 10% of the General Fund total budget.

The following will guide how reserves should be used:

1. Use the General Fund reserves to phase into fiscal distress periods gradually, focusing on maintaining the Board's priorities.
2. To the extent possible, use the General Fund reserve as the last resort to balance the County Budget.
3. Keep a minimum General Fund reserve balance at the GFOA recommended 5% of

# Budget Construction & Legal Requirements

---

the total budget at all times. To the extent possible, the spending down of General Fund reserve should not exceed \$6 million a year.

## Other Designations

Increase designations of Employee Leave Payoff to \$8.5 million and Deferred Capital Maintenance projects to \$20.7 million.

## Summary of Designated Responsibilities for Actions

## Benchmark Counties

When reviewing the County of Solano's economic health, our County government's financial capacity, and our delivery of services to residents of unincorporated areas, we inevitably compare ourselves from the current year to past years.

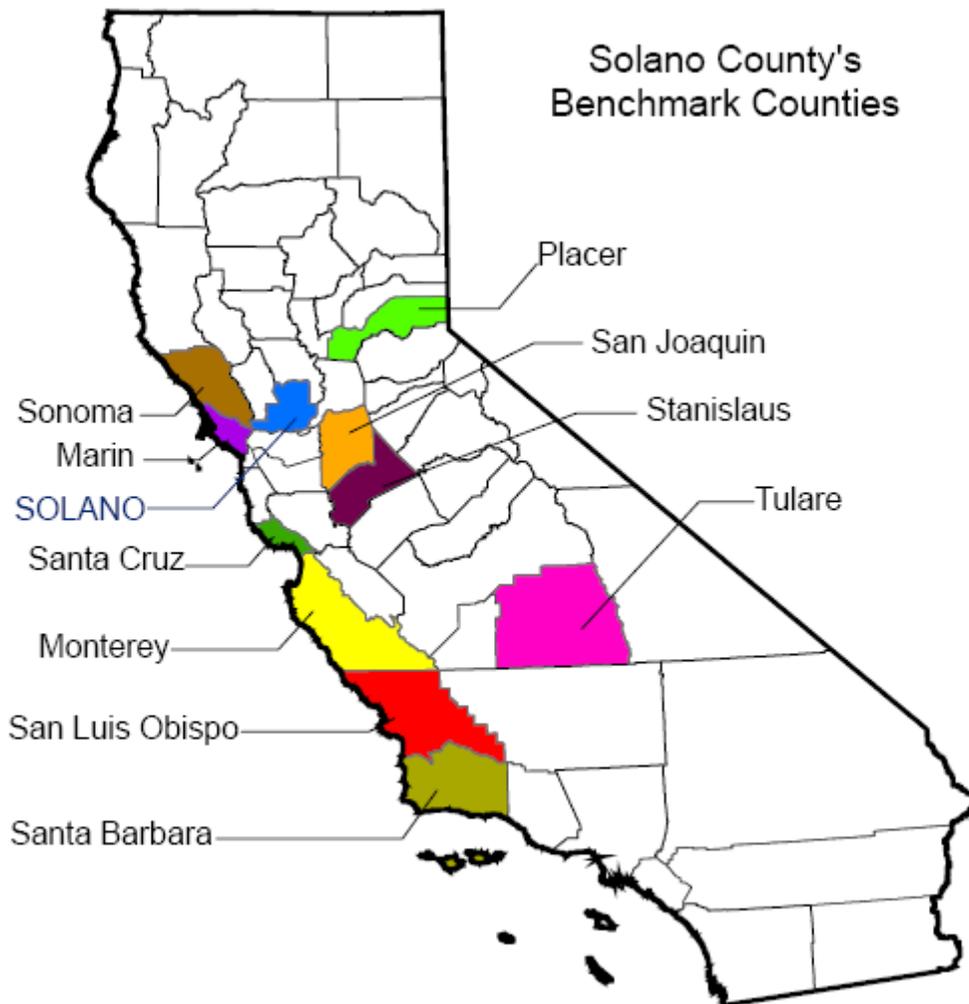

Additionally, the question of how we compare with other counties is often asked. This leads to the question: Which counties should we use for comparison purposes?

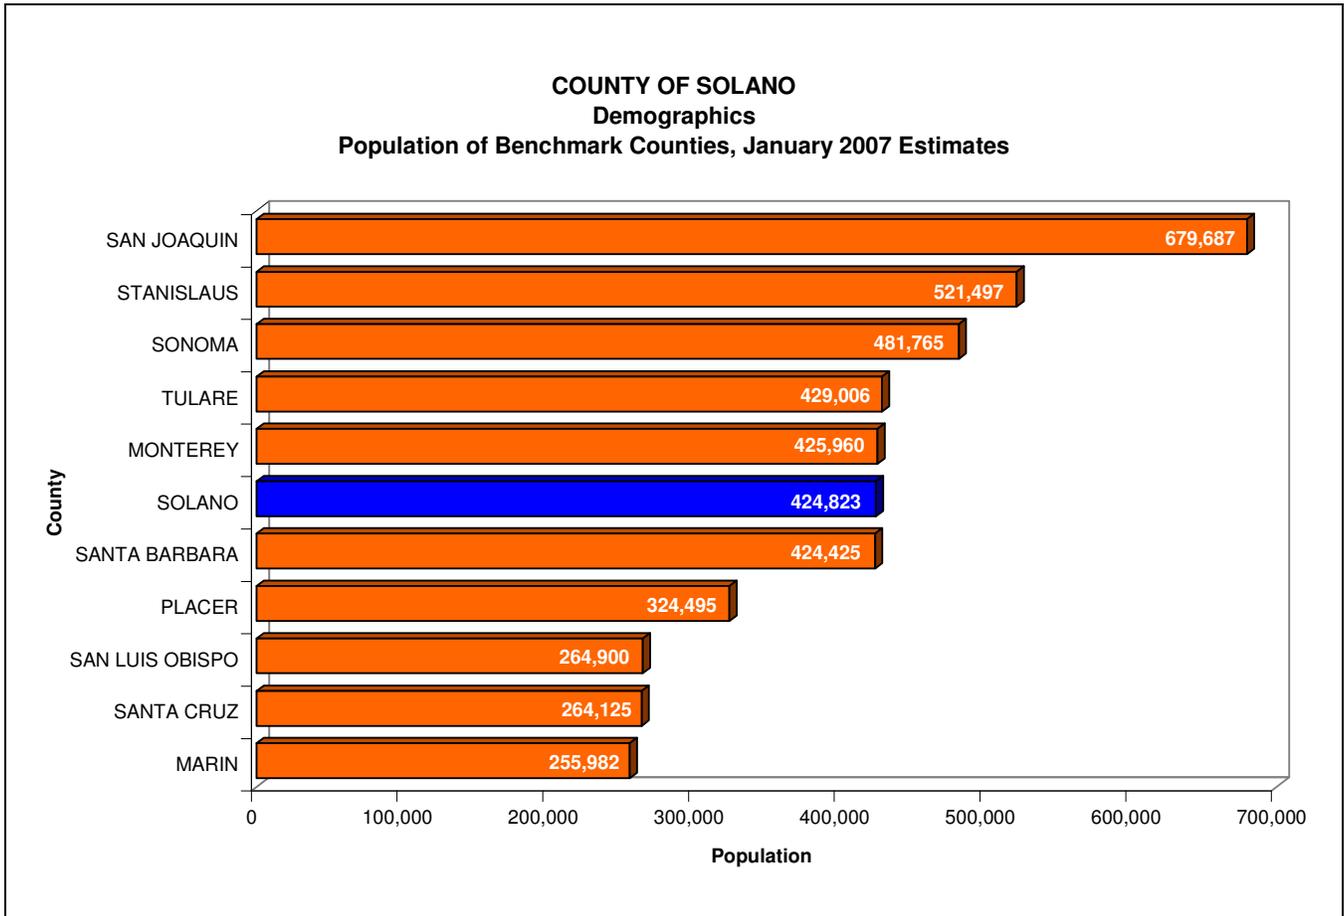

# County Statistical Profile

---

We have selected a group of ten counties that are used for comparisons in the following five charts. The County of Solano has the following characteristics in common with each of these counties:

- They are the ten counties closest to Solano in population – five with higher population and five with lower population.
- A total population of more than 255,000 but less than 680,000.
- All include both suburban and rural environments.
- None contain a city with over 300,000 in population.
- Seven are coastal or Bay Area counties.
- Most have the same urban growth versus rural preservation issues facing Solano County.

# County Statistical Profile

According to the U.S. Census Bureau, Solano County consists of a total area of 907 square miles. Land area is represented by 829 square miles and water area by 78 square miles. Water area is 8.6% of total area.

San Francisco Bay, Suisun Bay, the Carquinez Straits and the Sacramento River provide the County with natural borders to the south and west. Rich agricultural land lies in the north area of the County while rolling hills are part of the

south area. Over 60% of the County land area is comprised of farmland.

Despite having a smaller than average land and water area when compared to the Benchmark counties, Solano County's proximity to the Bay Area and the fact that the County contains the largest protected marsh habitat brings up complex issues for County government.

# County Statistical Profile

As shown in the following tables entitled Persons per Square Mile of Land Area and Percent Residing in the Unincorporated Area, while Solano County has a high per-square-mile (land area) population density, its residents are concentrated in cities. According to the California Department of Finance's January 2007 City/County Population Estimates, 82% of California residents live in cities and 18% in

unincorporated areas. In contrast, in Solano County, 95% of residents live within the County's seven cities. This phenomenon was not an accident. In the early 1980's the residents of the County passed the Urban Growth Initiative, Measure A, which limits most urban growth to incorporated cities.

# County Statistical Profile

This unique mixture of a sizeable urban population and a large rural/agricultural base creates many problems and challenges for County government. These include:

- Balancing continuing urban growth pressures with the need to preserve agriculture and open space.
- Problems in the transition zones between urbanized areas and agricultural areas (i.e., land use, pesticide use, dust, odors and vermin).

- Coordination of infrastructure transitions from the urban areas to the rural areas (i.e., reliever routes, upgraded feeder streets/roads, and flood control).
- A large urban driven need (as indicated by the high density per square mile) for health, public assistance and law and justice services, with little County government control or influence in promoting initiatives in the urban environment that would create long-term improvements.

## Population and Demographic Profile

The following charts entitled Population by Age Group and Population by Percentages in Various Age Groups show that from the 1990 Census to the 2000 Census, the 45 to 59 age group of Solano County residents was the fastest growing population segment with an increase of 26,905 residents, a 57.3% increase.

From the 2000 Census to the 2010 Census projections, the 60+ age group will be the fastest growing population segment with an increase of 33,690 residents, a 66.1% increase. This segment of the County's population is projected to continue to grow at a faster rate than the other age groups. In 2010, almost one in every five County residents will be over the age of 60.

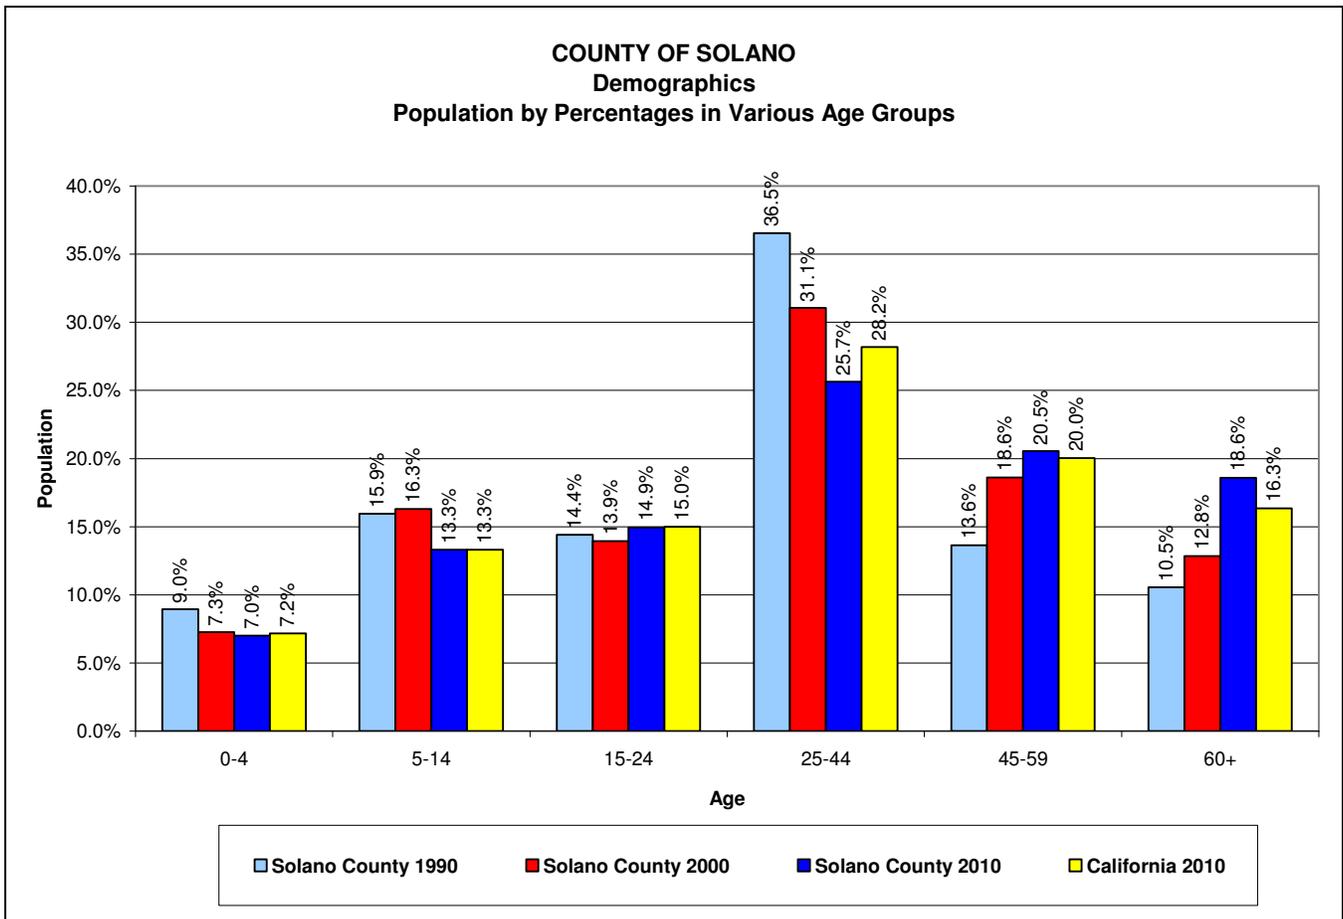

Source: California Department of Finance, Demographic Research Unit

# County Statistical Profile

While the population in Solano County is projected to grow 32.4% between the 1990 Census and the 2010 Census projections, the 25 to 44 age group is projected to decrease (7.0%) and the 60+ age group is projected to increase 133.3%.

Segments that are decreasing from the 2000 Census are the 5 to 14 age group which has decreased (6.2%) and the 25 to 44 age group which has decreased (5.1%).

The age demographics in Solano County are very similar to those of the State of California and the trend of these demographics indicators are consistent with the current “graying” of a large segment of the American population. The “Baby Boom” generation (those born between 1946 and 1964) represents a significant segment of the nation’s population, and they will begin reaching retirement age (65) in 2011. In 2010, 39.1% of Solano County’s population and 36.3% of the State’s population are projected to be over 45 years of age.

## Population Living in Poverty

The U. S. Census Bureau's 2005 American Community Survey poverty level figures show 9.3% of the County population is living at or below poverty level. This is 3.1 percentage points above the 2004 American Community Survey. The U.S. Census Bureau's statistics on poverty provide an important measure of the country's economic well-being and are sometimes used to assess the need or eligibility for various types of public assistance.

Poverty statistics presented use thresholds prescribed for federal agencies by the Office of Management and Budget and are estimates. While the County's level is not acceptable, it should be noted that only three of the comparison Counties have a lower rate. The County's rate is a significant improvement over the 13.3% State rate for population living at or below poverty level.

## Population by Ethnicity

The following chart entitled Population by Ethnicity reflects July 1, 2000 and 2010 population projections by ethnicity. This data indicates that the percentages of ethnic minorities have increased in all ethnic segments, with the exception of the White segment. This segment of the population is projected to decrease (18.4%) from 2000 to 2010. In the year 2000, the White category represented almost 50% of Solano County's population; in 2010, this segment is projected to represent 39% of the population.

The most significant increase occurred in the Hispanic segment with a projected 73.9% increase over the 2000 data and will represent 26.6% of the 2010 County population.

The Asian segment is projected to have a 50.5% increase from the 2000 population data and will represent 16.6% of the County population in 2010. The African American segment followed with a 38.4% increase and represents a projected 17.8% of the 2010 County population.

The Other segment (which includes Native Americans, Alaskan, Hawaiian, Pacific Islanders and Multi-race segments) population is projected to increase 66.1% over the period and will represent 7.5% of the County's population in 2010.

Solano County's average wage per job of \$38,849 is slightly above the median range of

our comparison counties, as demonstrated by the chart below.

The Association of Bay Area Governments (ABAG) projections through 2010 show Solano County job growth rates at approximately 2% per year, or 7.5% over the next 5 years.

Between 2000 and 2005, 13,780 new jobs were created. The fastest growing County industries since 2000 by overall percentage gain are:

- Financial and Leasing sector with 1,550 new jobs, or 18.1%.
- Construction with 1,780 new jobs, or 17.1%.
- Professional and Managerial Services with 1,610 new jobs, or 16.5%.
- Health and Education Services with 3,970 new jobs, or 13.6%.
- Arts, Recreation and Other Services with 2,100 new jobs, or 11.8%.
- Information with 210 new jobs, or 9.5%.
- Retail sector with 1,450 new jobs, or 8.2%.
- Transportation and Utilities sector with 290 new jobs, or 5.6%.

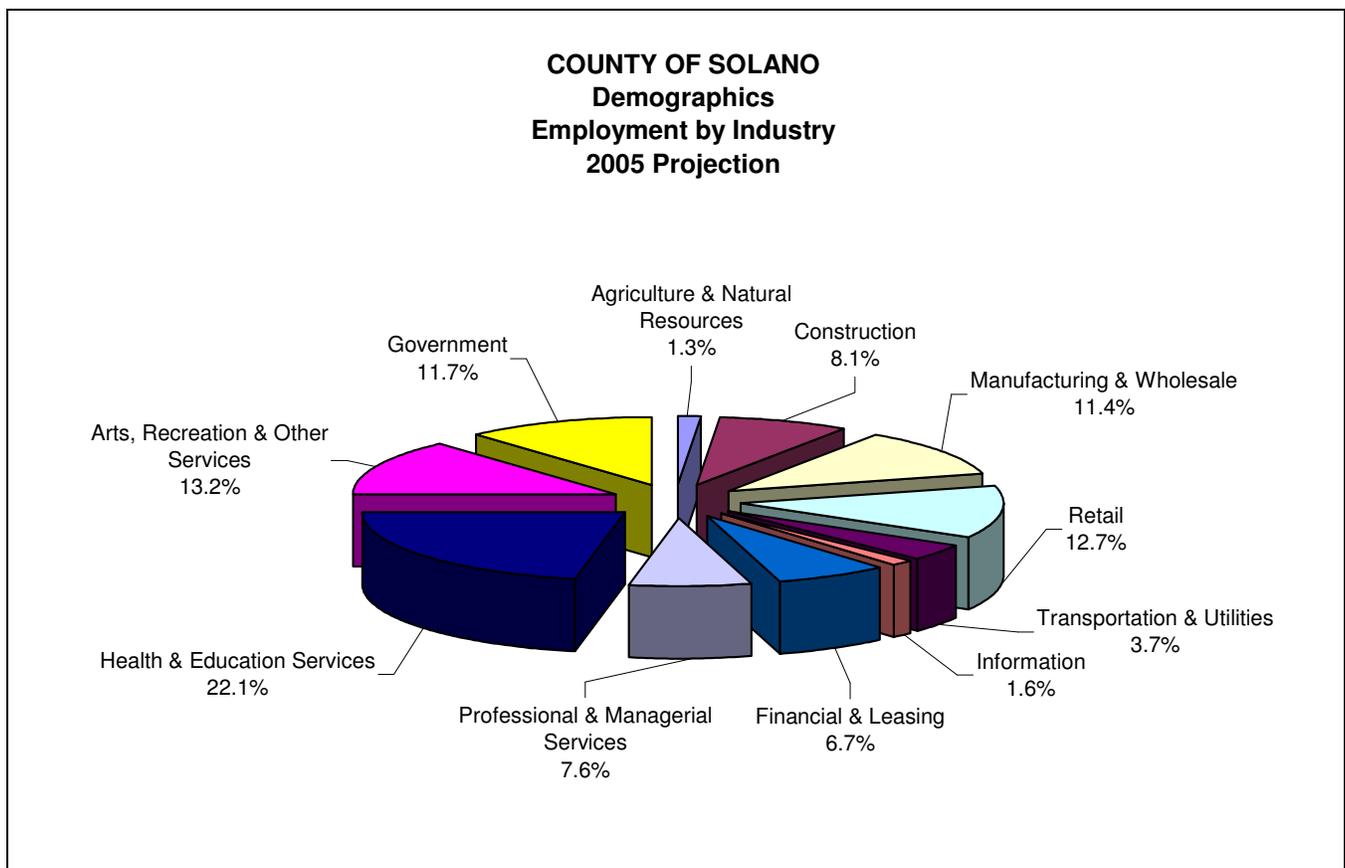

# County Statistical Profile

The graph below represents the distribution of the 150,520 jobs in Solano County projected by ABAG in various industries in 2005. The 150,520 jobs in these industries include:

- 2,010 in Ag and Natural Resources;
- 2,430 in Information;
- 5,510 in Transportation and Utilities;
- 10,130 in Financial and Leasing;
- 11,380 in Professional and Managerial Services;
- 12,200 in Construction;
- 17,610 in Government;
- 17,120 in Manufacturing and Wholesale;

- 19,050 in Retail;
- 19,890 in Arts, Recreation and Other Services; and
- 33,190 in Health and Education Services.

If the local workforce were able to fill all the available jobs in Solano County, we would still need approximately 60,000 additional jobs to allow all of our residents to live and work here. In reality, it's unlikely that there would be enough jobs in appropriate industries for the approximate 206,000 County employed residents.

## Solano County Commuting

According to a report prepared for the Metropolitan Transportation Commission's Regional Rideshare Program by RIDES Associates, approximately 40% of the County workforce works outside the County.

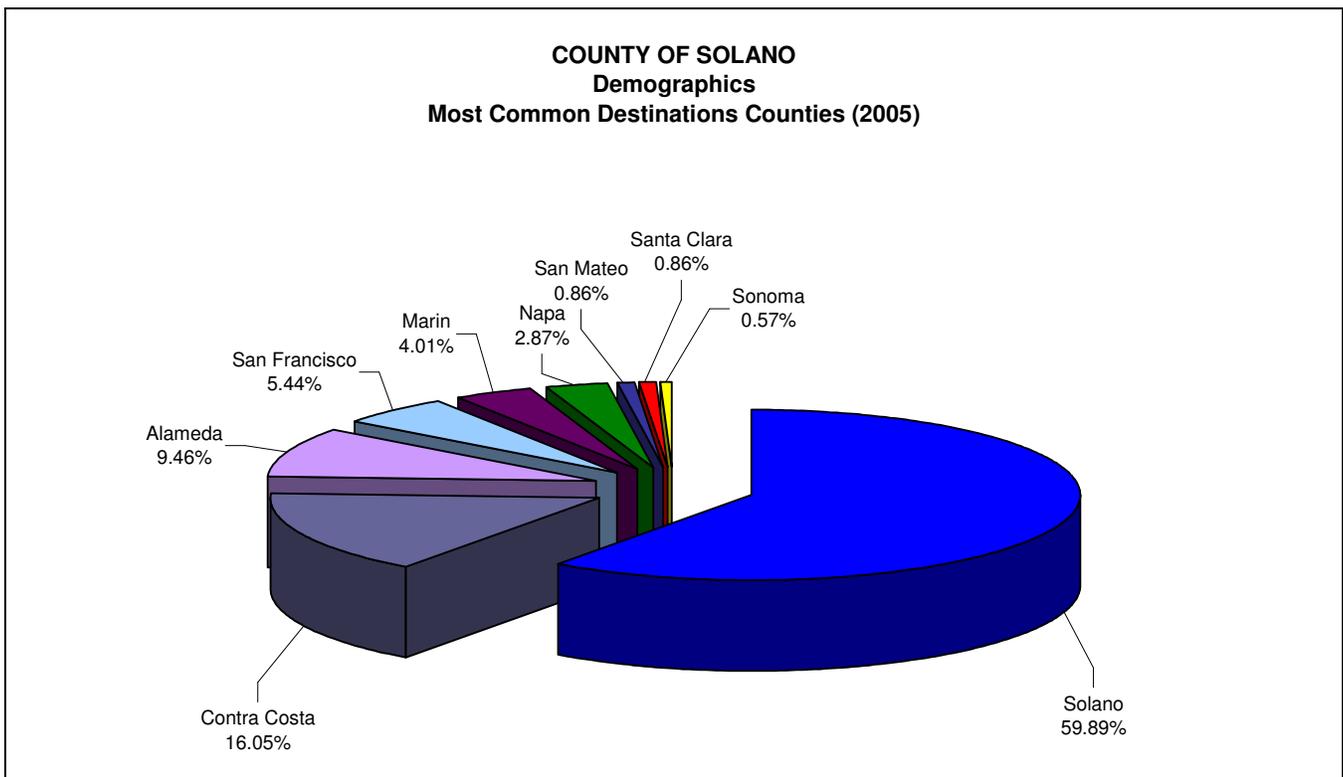

The chart below represents the numbers of average daily commuters for a typical spring weekday. It includes commuters who reside in Solano County using any means of transportation, commuting mainly to the following neighboring counties: Contra Costa, Alameda, San Francisco, Marin, Napa, San Mateo, Santa Clara and Sonoma.

The trend over the past three years has been for a greater number of Solano County residents to live and work within the County. Approximately 60% of Solano County residents have chosen to

stay inside their home County to work. This has increased by 19 percentage points over the last five years, or since 2001.

Based on ABAG's Projections of employed residents in Solano County in 2005, approximately 78,000 were commuting to jobs outside of Solano County. Of those 72%, or 56,000, drove alone while 17%, or 13,000, carpooled and the remaining used other modes for commuting. Carpooling is higher in Solano County than any of the other Bay Area counties.

With all but one of the County's cities positioned along the Interstate 80 and 680 corridors, Solano County provides the commuter with access to Bay Area jobs and a lower living cost.

## Gross Agricultural Crop Value

Sales of agricultural products continue to sustain the County's economy. With a 2006 estimated value of \$233,505,000, Solano County agriculture is diversified with approximately 75 different commodities including fruits, nuts, vegetables, grains, seed, nursery stock and livestock.

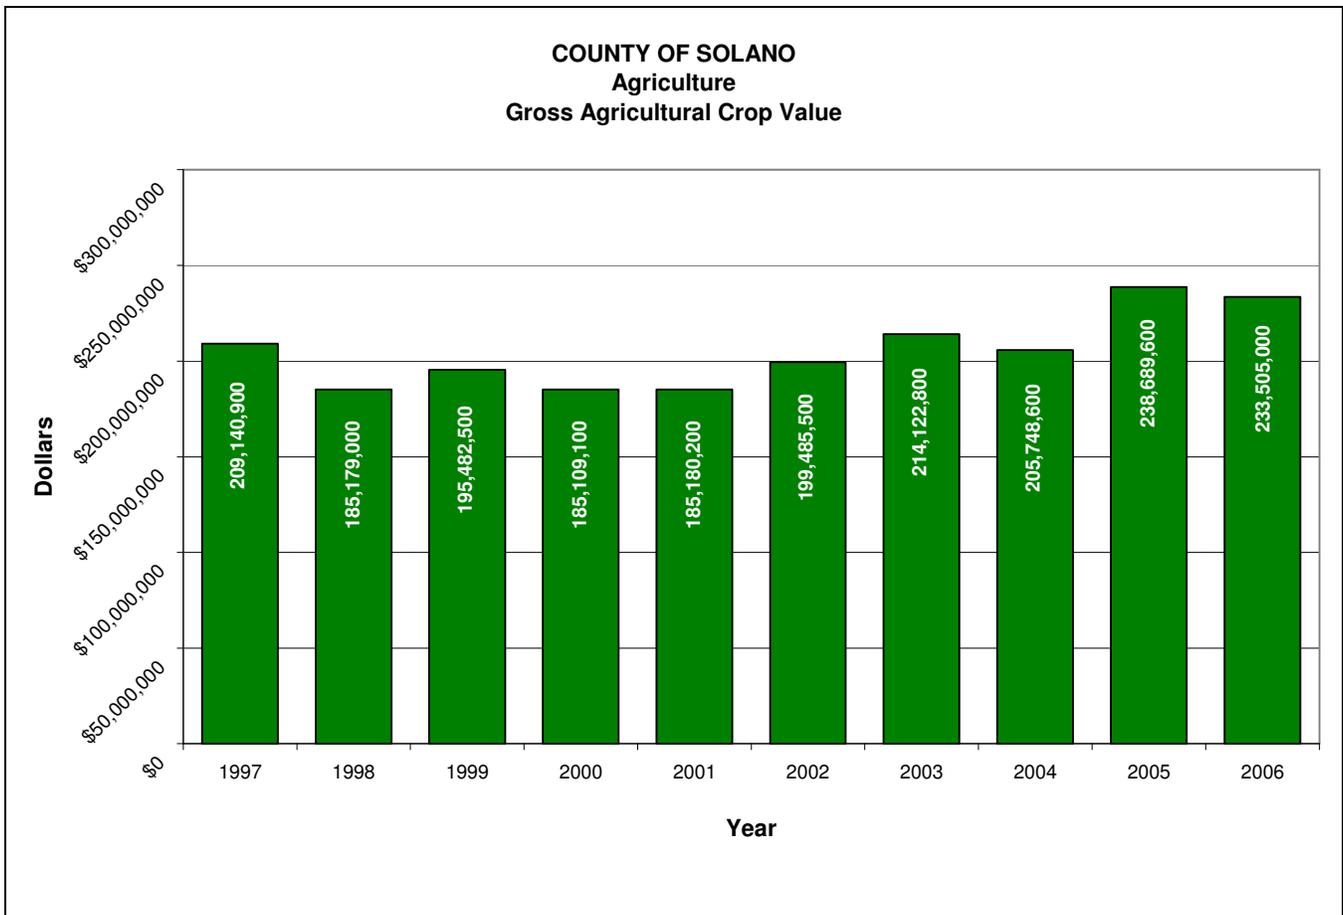

The 2006 estimated value of Solano County agriculture is divided as follows:

- Field Crops \$46,945,500;
- Nursery Production \$47,856,000;
- Fruit and Nut Crops \$39,964,300;
- Livestock Production \$35,941,300;
- Vegetable Crops \$40,899,400;

- Livestock, Poultry and Apiary Products \$11,910,900; and
- Seed Crops \$9,987,600.

The 2006 estimated value has decreased (2.2%) from the 2005 value due to crop loss and damage from the January 2006 floods and delayed plantings due to the continuous spring rains. Also, the record heat experienced in Solano County in July 2006 resulted in crop damage.

Statewide data from all counties' 2005 commodity reports ranked Solano County 30<sup>th</sup> out of 58 counties in California in gross value of agricultural production.
