

REBUTTAL TO OPPOSITION TO MEASURE G

We asked the county to put Measure G and Measure H before you – the voters – because our cities urgently need funding to fix our local streets and roads. Join us in supporting these measures.

Solano County residents have spoken – fixing our local streets and roads is their number one transportation priority. We are doing the best we can to maintain and repair our local streets, but the problem is getting worse and state funding has been dramatically cut. We need additional funding to repair our roads and make our local streets safer. No matter how we cut our budget, we will not be able to make these repairs without this funding.

Measure G directs 100% of the funds generated from Measure H go toward:

- Local street and road repair
- Road safety
- Fixing potholes
- Protecting transportation for seniors and disabled persons

We are supporting Measure G because we want to send a strong and clear message that fixing our local roads is critical.

With Measure G, all the revenue will be kept in our local communities. Each one of us pledge to use this funding to fix our local streets and make them safer.

Measure G clearly requires that a citizen oversight committee review all funds before they are spent.

We may not agree on everything, but we agree on this. Join every local mayor in Solano County and the entire Solano County Board of Supervisors and vote YES on Measure G.

Benicia Mayor Elizabeth Patterson
Dixon Mayor Jack Batchelor
Fairfield Mayor Harry Price
Vacaville Mayor Len Augustine
Vallejo Mayor Osby Davis
