

## Argument in Favor of Measure J

Vote **YES on Measure J** to ensure local Fairfield and Suisun students continue learning in safe, modern schools.

FSUSD has been a good steward of school facilities, maintaining and repairing them as needed. However, most schools are **over 35 years old** and some are almost **70 years old**, and need more than just upkeep.

Our schools require **urgent repairs** to address the health, safety, and instructional problems that impact thousands of students every day.

FSUSD completed a yearlong assessment of every school and developed a detailed plan with cost estimates to address the most urgent priorities.

**Measure J is the solution** to ensuring that our schools receive the critical improvements needed to continue keeping students safe and better prepare them for success in college and future careers.

### Yes on Measure J:

- Repairs or replaces leaky roofs, deteriorating plumbing, and sewer systems
- Updates classrooms for students with disabilities
- Upgrades old science labs and classrooms for job training
- Updates infrastructure to improve student access to instructional technology
- Replaces aging portable classrooms
- Provides libraries so students have full access to books, resources, and technology
- Provides education space for music and the arts
- Modernizes classrooms to meet 21<sup>st</sup>-century teaching and learning standards
- Improves campus safety and security

### Measure J Includes Mandatory Fiscal Accountability

- Independent citizens' oversight and annual audits ensure funds are spent appropriately
- No funds can be used for administrator salaries, benefits, or pensions
- Every penny raised by Measure J will be used for our local schools
- No funds can be taken away by the State

Whether or not you have school-age children, **protecting quality schools, home values, and our quality of life is a wise investment.**

Join parents, teachers, seniors, and local business and community leaders — **Vote YES on J!**
