FULL TEXT BALLOT PROPOSITION OF THE WINTERS JOINT UNIFIED SCHOOL DISTRICT BOND ELECTION FOR NOVEMBER 8, 2016

“To improve the quality of education funding that cannot be taken by the State; modernize, renovate and/or construct classrooms, restrooms, cafeterias, and other school facilities including Winters High School; make health, safety and handicapped accessibility improvements; and upgrade P.E. fields and facilities for school and community use; shall the Winters Joint Unified School District issue \$17,000,000 of bonds at legal interest rates, have an independent citizens’ oversight committee and have NO money used for administrative salaries?”

Bond proceeds will be expended to modernize, replace, renovate, expand, construct, acquire, equip, furnish and otherwise improve the classrooms and school facilities of the District.

The specific school facilities projects to be funded include, but shall not be limited to:

- Modernize/renovate outdated classrooms, restrooms and school facilities
- Construct new classrooms
- Make health, safety and handicapped accessibility improvements
- Upgrade P.E. fields and facilities for school and community use
- Repair or replace leaky roofs
- Repair or replace outdated heating, ventilation and air conditioning systems with building code compliant, energy efficient systems
- Improve technology infrastructure and increase student access to computers and modern technology
- Construct/renovate cafeteria at Winters High School
- Federal and State-mandated Americans with Disabilities Act (ADA) accessibility upgrades including site access, parking, staff and student restrooms, relocation of some existing electrical devices, drinking fountains, playground equipment, etc.
- Make security improvements throughout the District, such as installing security fencing, cameras, lighting, and fire alarm and security systems
- Repair and upgrade roofs, walls, and floors
- Make facility improvements to increase the District’s energy efficiency, including replacing outdated lighting and windows
- Upgrade school site parking, utilities and grounds

- Acquire real property for school facilities
- Replace existing wiring systems to meet current electrical and accessibility codes and increased capacity
- Federal and State-mandated Occupational Safety & Health Administration (OSHA) safety upgrades including playground equipment replacement
- Abate and remove hazardous materials identified prior to or during construction
- Repair, replace and/or upgrade paved surfaces, turf, and other grounds to eliminate safety hazards and improve outside instructional areas

The listed projects will be completed as needed. Each project is assumed to include its share of furniture, equipment, architectural, engineering, and similar planning costs, program/project management, staff training expenses and a customary contingency for unforeseen design and construction costs. In addition to the listed projects stated above, the list also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the list; installation of signage and fencing; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by construction projects. In addition to the projects listed above, the repair and renovation of each of the existing school facilities may include, but not be limited to, some or all of the following: renovation of student and staff restrooms; repair and replacement of heating and ventilation systems; upgrade of facilities for energy efficiencies; repair and replacement of worn-out and leaky roofs, windows, walls, doors and drinking fountains; installation wiring and electrical systems to safely accommodate computers, technology and other electrical devices and needs; upgrades or construction of support facilities, including administrative, physical education/athletic facilities and performing arts buildings and maintenance yards; repair and replacement of fire alarms, emergency communications and security systems; resurfacing or replacing of hard courts, pools, turf and irrigation systems and campus landscaping and play fields; expand parking; install interior and exterior painting and floor covering; demolition; and construction of various forms of storage and support spaces, upgrade classrooms, bleachers, kitchens, repair, upgrade and install interior and exterior lighting systems; replace outdated security fences and security systems. The upgrading of technology infrastructure includes, but is not limited to, computers, LCD projectors, portable interface devices, servers, switches, routers, modules, sound projection systems, laser printers, digital white boards, document projectors, upgrade voice-over-IP, call manager and network security/firewall, wireless technology systems and other miscellaneous equipment and software. The allocation of bond proceeds will be affected by the District's receipt of State matching funds and the final costs of each project. In the absence of State matching funds, which the District will aggressively pursue to reduce the District's share of the costs of the projects, the District will not be able to complete some of the projects listed above. The budget for each project is an estimate and may be affected by factors beyond the District's control. Some projects throughout the District, such as gyms, fields and performing arts

facilities, may be undertaken as joint use projects in cooperation with other local public or non-profit agencies. The final cost of each project will be determined as plans and construction documents are finalized, construction bids are received, construction contracts are awarded and projects are completed. Based on the final costs of each project, certain of the projects described above may be delayed or may not be completed. Demolition of existing facilities and reconstruction of facilities scheduled for repair and upgrade may occur, if the Board determines that such an approach would be more cost-effective in creating more enhanced and operationally efficient campuses. Necessary site preparation/restoration may occur in connection with new construction, renovation or remodeling, or installation or removal of relocatable classrooms, including ingress and egress, removing, replacing, or installing irrigation, utility lines, trees and landscaping, relocating fire access roads, and acquiring any necessary easements, licenses, or rights of way to the property. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District staff when performing work on or necessary and incidental to bond projects. Bond proceeds shall only be expended for the specific purposes identified herein. The District shall create an account into which proceeds of the bonds shall be deposited and comply with the reporting requirements of Government Code § 53410.
