

YES ON MEASURE S.

VITAL SERVICES FOR SUISUN CITY.

Measure S ensures Suisun City will not lose police officers or see reduced neighborhood police patrols.

Measure S protects and strengthens Suisun City's most vital services. It protects your property values.

Measure S bolsters:

- * Neighborhood Police Patrols throughout Suisun City
- * Youth Crime Prevention programs
- * Suisun City's Police Department - keeping our qualified and experienced officers
- * Emergency 911 by slashing response times by our first responders

With **Measure S**, Suisun City will stay a great place to live, raise a family, retire, own a business – or just plain visit.

Suisun City is a great hometown. But it hasn't always been.

Once, Suisun City was the last place you'd want to raise a family. It had empty storefronts, dilapidated buildings. The old Crescent neighborhood was where drugs were sold openly in front of our children. It wasn't nice.

Suisun City was voted the Worst City in the Bay Area.

That was in 1988.

Then, a group of Suisun City leaders began meeting and planning how to turn Suisun City around.

They created Suisun City's **Blueprint Plan** – showing what Suisun City could be – if we worked together.

The results are seen today. A **safer Suisun City**. A hidden gem.

Measure S ensures Suisun City stays this way.

The Suisun City we live in today is unrecognizable from its former self. That's how much change occurred since 1988.

But, Suisun City's way of life is threatened.

Suisun City's financial situation is serious. Stemming from the brutal economic recession and funding that State government stripped from cities. Suisun City is one of hundreds of cities that face enormous pressures.

Because Measure S resources cannot be taken by the State, Suisun City keeps its most vital services – those that keep our families safe and our neighborhood protected.

Please join hundreds and hundreds of Suisun City's community, neighborhood and business leaders.

Vote Yes on Measure S. Keep Suisun City Safe.
