Reasons why project is exempt:

The project would upgrade the sewer and water lines within Stinson Avenue and West Monte Vista Avenue. These upgrades would help the lines meet present design standards for the sewer and water demand flows in the area. The project area was developed primarily in the 1950s to 1960s and the proposed sewer and water line upgrades would not expand City services to areas not previously served by City utilities. The upgraded lines would continue to collect sewage and distribute water to the same areas as the existing lines. Therefore, the proposed project would not result in a substantial change in purpose or capacity of the sewer and water lines.
