Project Title: Science Elements of the Wetland Regional Monitoring Program

Project Applicant: Aquatic Science Center

Project Location - Specific: wetland habitat in the San Francisco Bay region

Project Location - City: All Project Location - County: All 9 Bay Area counties

Description of Nature, Purpose and Beneficiaries of Project:

The San Francisco Estuary Wetland Regional Monitoring Program is a collaboration of organizations and public entities representing major partners in wetland restoration, science, and community engagement. The work support a regional goal to improve understanding of wetland conditions and landscape-scale changes that impact wetland conditions in the Bay, such as sea level rise, and to decrease the burden of monitoring for individual projects. The project will implement wetland monitoring activities, analyze, and share data.
