IV. FY2012/13 First 5 Solano Proposed Budget

A. Approve the First 5 Solano FY2012/13 Proposed Budget

Discussion: Michele Harris, Deputy Director gave a PowerPoint presentation of the FY2012/13 proposed budget. She noted that year is unlike previous years in that the Commission recently updated their Strategic Plan and established a new, three-year Program Investment Plan with a set level of spending for each of the Priority areas. County Commissions are still waiting to see if State will file an appeal to the ruling invalidating AB99 by the deadline approaching of March 19, 2012. The Commission also approved four Requests for Proposals (RFPs); three closed on March 5, 2012 with review panels to be convened, and recommendations of awards for funding set for the next Commission Meeting on April 3. Ms. Harris also reviewed the revenue streams and estimated expenditures for FY2012/13, with explanations on revenue losses, which are primarily loss of matching funds from the First 5 State Match Program for School Readiness.

Christina Arrostuto, Executive Director presented information regarding a developing proposal with the County Administrator’s Office for First 5 staff to manage a number of General Fund
Contracts, with appropriate compensation for staff time. This plan is in the formative stages of discussions, and estimates of staff support were included as a separate section in the FY2012/13 budget. Commissioner Dean inquired as to the accuracy of the cost estimates and whether First 5 would otherwise be faced with laying off staff. Ms. Arrostuto agreed that there is work to do to clarify the cost issues (currently First 5 is proposing 10% of the value of contracts managed for administrative support), and confirmed that, absent this plan, First 5 would lose staff. She estimated that the Board of Supervisors would discuss this proposal in late March or early April, and if approved, the plan would be included in the supplemental budget information that is part of annual County budget deliberations in June 2012.

Ms. Harris commented that revenue streams have steadily decreased over the last few years (with the exception of FY2010/11, when unspent First 5 Solano school readiness funds and First 5 California state match dollars for school readiness were reallocated from the first four-year cycle of funding to Cycle 2, which ends June 30, 2012).

The largest expenditures in the budget are program expenses. Funds are identified in the budget for Year 1 of the 2012-2015 funding cycle, and staff are implementing the Commission’s approved Program Investment Plan by renewing contracts or selecting new providers through Requests for Proposals. The operations budget of 15% includes costs for the First 5 staff and internal programs. In addition, 3% of the budget is set aside for evaluation and data collection expenditures.

For FY2012/13, the proposed First 5 expenditures are $5,706,886, plus $180,000 for General Fund contract management, for a total of $5,886,886. This represents a significant decrease from FY2011/12, reflecting the new spending level set in the 2012-2015 Program Investment Plan. Ms. Harris presented a summary of the grants and program budgets in the Program Investment Plan, noting one small difference in CARES Plus matching funds. She noted the funding for First 5 Futures, Community Engagement and the Discretionary Fund and went over the recommendation to reinstate the fund for the audio technician for Commission Meetings as part of the Professional Services budget.

Ms. Arrostuto went over the First 5 Futures budget, noting partnerships staff and Commissioners are pursuing with Chambers of Commerce, and the upcoming third annual Solano Economic Development Corporation breakfast sponsored by First 5 Solano will be held in May 2012 and will include the second annual Family-Friendly Business awards. Staff will focus on meeting with foundations to build relationships and apply for grants, developing a federal and state grants timeline, and identifying ways to track and weigh in on legislation, policy and ballot initiatives.

Staff noted that once the Commission approves its FY2012/13 budget, staff will work to finalize awards of funding and ensuring that all contracts to implement the FY2012-2015 funding cycle are approved by the Board of Supervisors for services to begin on July 1, 2012. An RFQ for collaboration/coordination of the Commission’s initiatives, as well as consultant services to help develop and manage the flow of coordination with data collection and evaluation activities, will be created over the next few months. The Program and Community Engagement Committee will work to develop recommendations on how to deploy Discretionary funds. Staff will continue to work with the County Administrators office to implement the transition of the General Fund Contracts to First 5 Solano.

Next, the Commission discussed a line item in the budget for Staff and Operation Expenditures. This number ($867,665) number exceeds the amount in the approved Program Investment Plan by $34,665. This overage is attributed to two factors, the first is Workman’s Compensation increase of approximately $26,000 that was unexpected, the second is unanticipated increased space costs. Staff are working with the Auditor-Controller’s Office, General Services and the County Administrators office on the latter issue. Commissioner Dean asked how this will be
accounted for. Ms. Arrostuto suggested that staff bring a draft amended Program Investment Plan to the Commission next month.

Commissioner Speck commented that he would future budget presentations to include overall revenues, expenditures and ending fund balance, with the notation that we are “deficit spending” in the report. Ms. Arrostuto noted that, unlike most (if not all) public agencies, First 5 Solano does not consider annually accessing reserves to be “deficit spending,” since this is approved in the Long Term Financial Plan. Nevertheless, she agreed that both Commissioners and the public should have a clear understanding of the amounts of reserves accessed and remaining annually for prudent and effective long-term planning.

Commissioner Dean asked how the potential litigation for AB99 was handled in this budget. Christina Arrostuto advised that, per Commission direction, the amounts funded for FY2012/13 do not require accessing any funds restricted by AB99.

*Commissioner Betz moved to approve this motion. The motion passed unanimously with further direction to Staff to bring back the amendment to the 2012-2015 Program Investment Plan.*

The report takes information from all of the First 5 County Commissions throughout the State and uses it to inform the Governor, the state Legislature and the public about the work that the First 5 Commissions are doing. Venis Jones Boyd, Family Support – Quality Child Care Programs Manager, discussed how the funds are administered to different agencies in support of transitional housing for families.
